

About Me

My name is Jim Carr. I'm a software engineer living near Dayton, Ohio.

I've been an IT professional since 1988, working in multiple industries, using a wide variety of languages and tools.

I also have an amateur's interest in astronomy, and science in general. I embrace skepticism, and reject pseudoscience.

If you'd like to contact me, you can email me: [jfcarr\(at\)gmail.com](mailto:jfcarr(at)gmail.com).

My Sites and Profiles

Facebook	My personal Facebook page. (I don't use Facebook regularly)
LinkedIn	My LinkedIn profile.
GitHub	Lots of code! 😊
Knowledge Base	This is a wiki I maintain. It contains lots of "how-to" articles, mostly technical in nature.
Twitter/X	I deleted my Twitter account after the takeover .
Mastodon	Like Twitter, but no algorithms, and a lot less toxic. My favorite social media right now.
