.NET IoT and Terminal GUI -- August 11, 2023

I gave this talk for the Dayton .NET Developers Group at the Innovation Hub (in Dayton, Ohio) on August 8th. I'm really happy with how this one turned out! We were able to get through all of the content, and without technical glitches! Good conversation afterwards, too.

If you're interested in the content, all of the source code is available at https://github.com/jfcarr/dotnet-iot-tui, along with high-level documentation at https://jfcarr.github.io/dotnet-iot-tui/.

Time to start thinking about what's next!
